GRIPPERFIX®

Universal Mounting System

Makes fixing almost anything on metal roofs simple!

- **No penetration of concealed-fix roof**
- **No field-applied sealants needed**
- **Ease of installation**
- **Eliminates corrosion and rust**
- **Free flow of rainwater under struts**
- **No damage to roof system**
- **Compatible with S-5! CanDuit™ clamps for securement of piping/conduit**

To build a long-lasting system, it is crucial to maintain roof warranties and avoid destructive corrosion. Improperly installing utilities on a metal roof can compromise both the equipment and the integrity of the roof itself.

Don't settle for temporary solutions like concrete blocks for ballast. Long-term solutions require durable fixing methods, and that's where *GRIPPERFIX* comes in. It is the perfect solution for installing HVAC, satellite dishes, light fixtures, security cameras, piping/conduit, service walkways and other rooftop utilities. Choose *GRIPPERFIX* and preserve the integrity of your metal roof.

S-5!® *The Right Way*

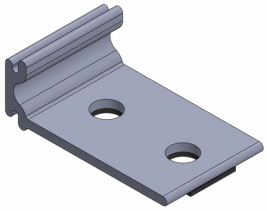

Exposed-Fix Metal Roof

Securely fixes rooftop utilities to exposed-fix roof while still allowing free flow of rainwater under the system. All you need is the GRIPPERFIX Strut, S-5! self-piercing fasteners and EF Tabs. M8 bolts in different lengths are available to use with the optional damper pad(s). The GRIPPERFIX Leveler allows for the levelling of rooftop utilities up to 7 degrees when needed. The adjustment range varies based on the utility's size.

EF Tab

Special design interlocks securely with strut
Factory-applied EPDM rubber gasket

Piercing Fastener

S-5! thread, stainless head and needle point design offers superior strength with no drilling; EPDM gasketed screw together with EF Tab provides "double-seal" performance

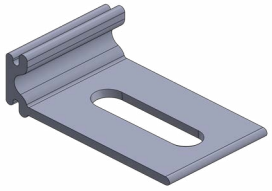

Concealed-Fix Metal Roof

GRIPPERFIX simplifies utility fixing without damaging your roof. For concealed-fix roof projects, all you need is the GRIPPERFIX Strut, S-5! non-penetrating clamps and CF Tabs. The GRIPPERFIX Leveler allows for the levelling of rooftop utilities up to 7 degrees when needed. The adjustment range varies based on the utility's size.Select the appropriate S-5! Mini clamp for specific roof profile.

CF Tab

Special design interlocks securely with strut
Slotted hole for adjustment

S-5! Mini Clamp

Select appropriate S-5! Mini clamp for specific roof profile

System Components

(Components sold separately)

GRIPPERFIX Strut

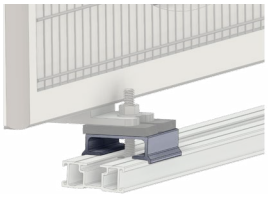

(300, 600, 950, 1200 mm)
Design has channels for adjustments and placement on roof.

(Custom lengths available on quantity orders).

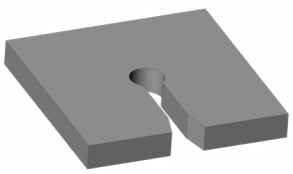

GRIPPERFIX Leveler

Sold as a kit with (4) Levelers, (4) Leveling Pads, (2) 60 mm Bolts, (2) 20 mm Bolts and (4) M8 Nuts

GRIPPERFIX Leveling Pad

(HVAC applications)
Keyhole slot for insertion before, during or after assembly

M8 1.25 Bolt

17, 20, 40, 60 mm stainless steel bolt available

M8 Hex Flange Nut
